OUR PRODUCTS

# Green Roof Products *& Accessories*

Integrated systems and accessories designed for attractive, simple, and secure green roof solutions. All components promote plant health, long life, and dependable sustainability.

PRODUCT LINEUP

## Everything You Need for Your Green Roof

From modules and plants to stormwater management and installation equipment.

GREEN ROOF MODULES

CORE SYSTEM

### Green Roof Modules

The foundation of every LiveRoof system

ROOFEDGE

EDGING

### RoofEdge

Aluminum edge restraint

A seamless, beautiful and instantly mature green roof. Four module options — Standard, Deep, Lite, and Maxx — to match any project requirement.

LEARN MORE →

Patented second-generation green roof edging. Extruded, fabricated, and finished in the USA with architectural-grade anodized finishes.

LEARN MORE →

ROOFSTONE

PAVERS

## RoofStone

Integrated rooftop pavers

Artisan-quality pavers with built-in pedestals. Installs in 1/10th the time of traditional pedestal and paver solutions. ADA compliant.

LEARN MORE →

WINDDISC

ACCESSORY

## WindDisc

Wind uplift resistance

Simple connectors that secure LiveRoof modules together for a sustained 200 PSF wind uplift rating. Essential for high-rise and hurricane-prone regions.

LEARN MORE →

PIPERUNNER

ACCESSORY

## PipeRunner

Irrigation pipe channels

Cradles irrigation pipes between module rows with gaps for water flow and side extensions to prevent soil spillage.

LEARN MORE →

ROOFBLUE

STORMWATER

## RoofBlue

Blue-green stormwater solutions

Patented stormwater retention and detention systems. RETAIN captures and recycles water to plant roots; DETAIN provides temporary detention below modules.

LEARN MORE →

GREEN ROOF PLANTS

PLANTS

## Green Roof Plants

RoofTop Proven™ plant selections

Dozens of exclusive varieties bred and tested specifically for rooftop performance. Selected for drought tolerance, vigor, and beauty in your local climate.

LEARN MORE →

GREEN ROOF SOIL

SOIL

## Green Roof Soil

Engineered to exacting standards

Proprietary blend of the finest inorganic and organic materials. 94%+ inorganic by dry weight, conforming to German FLL granulometric standards.

LEARN MORE →

DELIVERY & INSTALLATION

EQUIPMENT

## Delivery & Installation

Equipment and tools

Specialized delivery trucks, Roll-a-Roof conveyors, and Hoppit truck-to-roof conveyance racks to minimize installation time and cost.

WHY LIVEROOF

# Why Choose LiveRoof Systems?

We are dedicated to providing the best functioning, most beautiful, longest lived, and most easily maintained green roof on the market.

### Natural Function

LiveRoof is a unique modular green roof system that unites the soil across a monolithic continuum. This allows for equal distribution of moisture, fertility, and beneficial organisms — the key to long term function.

### Natural Beauty

LiveRoof is subterranean, allowing for a naturally beautiful, meadow-like aesthetic. There is no unsightly gridwork of module edges.

### Knowledgeable

The LiveRoof network is dedicated to using sound green-roofing principles including proper interface with the waterproofing system, soil composition, and specific plant options for various soil depths, climates, and rooftop microclimates.

### Experienced & Proven

Over 5,000 projects and 150M+ square feet installed throughout North America. Best practice information is shared among all LiveRoof growers — 500+ years of collective horticultural experience.

### Technical Support

On most projects, a member of the LiveRoof grower's team will be present to consult, educate,

### Scalable & Versatile

The patented LiveRoof System is scalable to any size project — from warehouse-scale installations

and facilitate the installation. Growers are available for ongoing maintenance training and consultation.

to precisely patterned boutique designs. Accommodate unique color patterns, social spaces, and a great variety of plants.

GUARANTEED QUALITY

## Our Products Are Guaranteed

The LiveRoof module is warranted against material defects and photodegradation for **50 years** from the date of installation.

We also offer plant warranties, membrane compatibility guarantees, and optional overburden removal coverage for 10, 15, or 20 year terms.
