OUR PRODUCTS

Vegetative Roof Products *& Accessories*

Integrated systems and accessories designed for attractive, simple, and secure vegetative roof solutions. All components promote plant health, long life, and dependable sustainability.

PRODUCT LINEUP

Everything You Need for Your Vegetative Roof

From modules and plants to stormwater management and installation equipment.

VEGETATIVE ROOF MODULES

ROOFEDGE

CORE SYSTEM

Vegetative Roof Modules

The foundation of every LiveRoof system

A seamless, beautiful and instantly mature vegetative roof. Four module options — Standard, Deep, Lite, and Maxx — to match any project requirement.

[LEARN MORE →](#)

EDGING

RoofEdge

Aluminum edge restraint

Patented second-generation vegetative roof edging. Extruded, fabricated, and finished in the USA with architectural-grade anodized finishes.

[LEARN MORE →](#)

ROOFSTONE

WINDDISC

PAVERS

RoofStone

Integrated rooftop pavers

Artisan-quality pavers with built-in pedestals. Installs in 1/10th the time of traditional pedestal and paver solutions. ADA compliant.

[LEARN MORE →](#)

ACCESSORY

WindDisc

Wind uplift resistance

Simple connectors that secure LiveRoof modules together for a sustained 200 PSF wind uplift rating. Essential for high-rise and hurricane-prone regions.

PIPERUNNER

ROOFBLUE

ACCESSORY

PipeRunner

Irrigation pipe channels

Cradles irrigation pipes between module rows with gaps for water flow and side extensions to prevent soil spillage.

[LEARN MORE →](#)

STORMWATER

RoofBlue

Blue-green stormwater solutions

Patented stormwater retention and detention systems. RETAIN captures and recycles water to plant roots; DETAIN provides temporary detention below modules.

NEW FOR 2025

SolaGreen

Solar meets living roof

LiveRoof's proven vegetative roof technology combined with integrated solar panels — delivering dual environmental and energy benefits on a single rooftop footprint.

[LEARN MORE →](#)

VEGETATIVE ROOF SOIL

HYDROPAVERS

SOIL

Vegetative Roof Soil

Engineered to exacting standards

Proprietary blend of the finest inorganic and organic materials. 94%+ inorganic by dry weight, conforming to German FLL granulometric standards.

[LEARN MORE →](#)

PAVERS

Hydropavers

Permeable rooftop paving

Permeable paving solution that manages stormwater while supporting foot traffic. Ideal for accessible rooftop terraces and vegetative roof perimeter walkways.

[LEARN MORE →](#)

DELIVERY & INSTALLATION

EQUIPMENT

Delivery & Installation

Equipment and tools

Specialized delivery trucks, Roll-a-Roof conveyors, and Hoppit truck-to-roof conveyance racks to minimize installation time and cost.

WHY LIVEROOF

Why Choose LiveRoof Systems?

We are dedicated to providing the best functioning, most beautiful, longest lived, and most easily maintained vegetative roof on the market.

Natural Function

LiveRoof is a unique modular vegetative roof system that unites the soil across a monolithic continuum. This allows for equal distribution of moisture, fertility, and beneficial organisms — the key to long term function.

Natural Beauty

LiveRoof is subterranean, allowing for a naturally beautiful, meadow-like aesthetic. There is no unsightly gridwork of module edges.

Knowledgeable

The LiveRoof network is dedicated to using sound green-roofing principles including proper interface with the waterproofing system, soil composition, and specific plant options for various soil depths, climates, and rooftop microclimates.

Experienced & Proven

Over 5,000 projects and 150M+ square feet installed throughout North America. Best practice information is shared among all LiveRoof growers — 500+ years of collective horticultural experience.

Technical Support

On most projects, a member of the LiveRoof grower's team will be present to consult, educate, and facilitate the installation. Growers are available for ongoing maintenance training and consultation.

Scalable & Versatile

The patented LiveRoof System is scalable to any size project — from warehouse-scale installations to precisely patterned boutique designs. Accommodate unique color patterns, social spaces, and a great variety of plants.

GUARANTEED QUALITY

Our Products Are Guaranteed

The LiveRoof module is warranted against material defects and photodegradation for **50 years** from the date of installation.

We also offer plant warranties, membrane compatibility guarantees, and optional overburden removal coverage for 10, 15, or 20 year terms.
